<b>General attributes</b>	<p>The LYRA REMBRANDT black chalk pencil offers a number of very good features. Chalks can be easily applied on virtually all types of paper. The opaqueness is very good and can by means of finger or other tools like a stump and kneaded eraser be wiped to almost transparency. When using the chalk follow this guide: Sketching with little pressure, will allow correction with the kneaded eraser. Step by step the individual parts of the drawing are being worked. Work from top down to avoid unwanted smearing of the finished area. The finished picture is to be protected with a suitable fixative spray.</p>
